✉ sadiaafrinshimu7@gmail.com | [Mst. Sadia Afrin Shimu](#) | [Academic Portfolio](#)

Zoology graduate and postgraduate researcher focused on primate conservation, biodiversity and environmental education in Bangladesh. Experienced in animal research, specimen handling, fieldwork and laboratory analysis. Seeking a research, conservation or environmental management role that applies practical expertise and academic knowledge.

EDUCATION

Master of Science, Zoology | Jagannath University (In progress; expected 2026)

Thesis: Microhabitat Selection of Roosting Bats

Bachelor of Science (Honours), Zoology | Jagannath University (2020–2024)

Higher Secondary Certificate (HSC) | Ispahani Public School and College, Cumilla (2019)

EXPERIENCE

Homeroom Teacher | Oxford International School, Doyaganj Branch

June 2025 – August 2025

- Taught Biology and Mathematics at junior level.

Volunteer Educator & Facilitator

January 2021 – Present

- Conducted wildlife and environmental conservation awareness sessions for children and local communities.
- Delivered public speaking presentations at seminars, science fairs, and cultural events.
- Organised and led educational workshops and outreach through the Nature Study and Conservation Club
- Collaborated with indigenous communities for surveys and awareness campaigns promoting primate conservation.
- Strengthened grassroots engagement and enhanced cross-cultural communication.

Research Assistant | Plumplotris e.V | Dortmund, Germany (Bangladesh branch)

June 2022 – Present

- Collaborated with international researchers and educators on primate conservation initiatives in Bangladesh, focusing on endangered species such as the Bengal Slow Loris (*Nycticebus bengalensis*) and Western Hoolock Gibbon.
- Designed and implemented awareness and education campaigns targeting school children, indigenous communities, and the general public to promote wildlife conservation and biodiversity.
- Developed and facilitated interactive conservation education programs, integrating local knowledge and cultural sensitivity to increase engagement.
- Created age-appropriate educational materials and presentations for community workshops and environmental clubs.
- Assisted in the preparation of research reports, conservation proposals, and scientific publications.
- Supported training and capacity-building efforts for local volunteers and university students involved in wildlife conservation and research.
- Contributed to published studies on primate trafficking, conservation education, and species behaviour.
- Strengthened cross-cultural communication and teamwork skills by working with German and Bangladeshi stakeholders across various conservation projects.

- Conducted field research and behavioural studies, including:
 - Daily Activity Budget of Bengal Slow Loris in Lawachara National Park
 - Population Status, Distribution, and Conservation of Bengal Slow Loris in Northeast Bangladesh
 - Behavioural Study of Western Hoolock Gibbon in Forest Patches of Bangladesh
-

EXTRACURRICULAR ACTIVITIES

- Volunteer speaker in nature awareness campaigns.
 - Participant in academic workshops and seminars.
 - Performer in cultural programs (recitation, dance).
 - Organiser of educational club activities.
 - Active participant in university science and cultural fairs.
-

FIELDS OF INTEREST:

- Animal Biology and Behaviour
 - Primate Biology and Conservation Education
 - Science Communication and Public Outreach
 - Curriculum Development in Biological Sciences
 - Environmental Education and Sustainability
 - Educational Program Design for Schools
-
